

Performance Measurement Results for the Office of Audit and Evaluation

As of March 31 2020

Introduction

The Policy on Internal Audit and its associated Directive on Internal Audit came into force on April 1, 2017. The Directive on Internal Audit stipulates, “Departments must meet public reporting requirements as prescribed by the Comptroller General of Canada and using Treasury Board of Canada Secretariat prescribed platforms, including: Performance results for the internal audit function (A.2.2.3, A.2.2.3.1)”.

The compliance attributes detailed below are intended to show an external audience that an internal audit function is in place and operating as intended.

The objective of the Policy on Internal audit is to “ensure that the oversight of public resources throughout the federal public administration is informed by a professional and objective internal audit function that is independent of departmental management”.¹

Heads of government organizations are responsible for “ensuring that internal audit in the department is carried out in accordance with the Institute of Internal Auditors’ International Professional Practices Framework unless the framework is in conflict with this policy or its related directive; if there is a conflict, the policy or directive will prevail”.¹

On March 9, 2018, the Office of the Comptroller General issued [Technical Bulletin 2018-1: Policy on Internal Audit](#), which provided additional guidance on the Policy and Directive. One element of the bulletin was the requirement to post performance results commencing June 30, 2018.

Furthermore, the Office of the Comptroller General provided departments with a document titled, [Why publish key performance compliance attributes of internal audit?](#) to provide additional context for the request.

In accordance with the Office of the Comptroller General's request and with the Policy, we are pleased to provide Shared Service Canada's (SSC) Office of Audit and Evaluation key compliance attributes as defined by the Office of the Comptroller General.

Key compliance attributes of Internal Audit

Departments are required to publish selected key compliance attributes in order to provide pertinent information to stakeholders (Canadians, parliamentarians) regarding the professionalism, performance and impact of the internal audit function in departments. The compliance attributes noted below address staff designations and training, as well as quality assurance and improvement programs in internal audit.

Professional certifications and designations

The Office of Audit and Evaluation leverages multidisciplinary teams to ensure identified engagement risks are sufficiently and appropriately addressed. This is achieved by hiring staff with diverse backgrounds and experience, together with the engagement of technical experts and specialists on an as-needed basis.

Key compliance attribute	Response
1(a) Percent of staff with an internal audit or accounting designation (Certified Internal Auditor, or Chartered Professional Accountant).	Of the 17 staff at the Office of Audit and Evaluation who are auditors or do audit-related work, 8 people, or 47% , have an internal audit or accounting designation.
1(b) Percent of staff with an internal audit of accounting designation (Certified Internal Auditor or Chartered Professional Accountant) in progress.	Of the 17 staff at the Office of Audit and Evaluation who are auditors or do audit related work, 1 person, or 7% , have an internal audit or accounting designation in progress.
1(c) Percent of staff holding other designations (such as Certified Government Auditing Professional, Certified Information Systems Auditor).	Of the 17 staff at the Office of Audit and Evaluation who are auditors or do audit related work, 12 people, or 71% , hold other relevant designations.

Quality assurance and improvement program

Key compliance attribute	Response
2(a) Date of last comprehensive briefing to the Departmental Audit Committee on the internal processes, tools and information considered necessary to evaluation conformance with the Institute of Internal Auditors' Code of Ethics and the Standards and the results of quality assurance and improvement program.	On June 10, 2019 , the Departmental Audit Committee received a copy of the report on the Internal Assessment of the internal audit practices at SSC.
2(b) Date of the last external assessment.	The External Practice Inspection Final Report for SSC is dated April 12, 2016 .

Internal audit plan and related information

Additions and adjustments to the internal audits listed in the Departmental Plan may occur in order to address emerging risks and priorities.

	Internal Audit Status	Status	Date of approval	Date of Publication	Original planned date of Management Action Plan (MAP)	Status of completion of MAP (% pf MAP completed)
Audit Engagements Closed in 2017-18						
1	Coordinated Audit of Cyber Security with Canada Revenue Agency	Approved—MAP not fully implemented	April 24, 2017	Not published due to security concerns	March 31, 2018	75%

	Internal Audit Status	Status	Date of approval	Date of Publication	Original planned date of Management Action Plan (MAP)	Status of completion of MAP (% pf MAP completed)

19	Audit of ITSM implementation project	In Progress				

Adding value

Senior management perception of the added value of the internal audit function overall is positive, and the Office of Audit and Evaluation will continue its efforts to improve these ratings.

In 2019-20 , of 6 respondents to 3 surveys, 54% reported them as excellent, 38% reported them as good, 5% reported them as fair and 3% reported them as poor.
